

# HN-E3S Tape

Polyester film coated with a pressure sensitive silicone adhesive

HN-E3S Tape is an all purpose pressure sensitive tape. It is widely used for multi-purpose functions in metal bond and composites, such as holding down vacuum bagging materials, thermocouple wires, masking-off, chem-milling protection or in riveting shops.

## HN-E3S Tape Characteristics

- Excellent high temperature resistance to 204°C
- High tensile strength
- Remove easily after the oven or autoclave cure

			HN-E3S
<b>Basic Performance</b>			
Adhesive type			Silicone
Film thickness		μm	25
Adhesive thickness		μm	30
<b>Mechanical Properties</b>			
Adhesion			Medium
Elongation at Break	ASTM D882	%	100
<b>Thermal Properties</b>			
Maximum Use Temperature		°C	204
<b>Product Size</b>			
Thickness			0,001 inch (25μm)
Length		m	66
Color			Blue

Stone condition: Shelf life 12 months; Storage conditions 22°C

Represent typical performance properties and should not be used for specification purposes.
